[A Postpartum Woman with an Erroneous SARS-CoV-2 Test](#)

Stephen A. Martin, MD, EdM, Gordon D. Schiff, MD, and Sanjat Kanjilal, MD, MPH | April 28, 2021

A pregnant patient was admitted for scheduled Cesarean delivery, before being tested according to a universal inpatient screening protocol for SARS-CoV-2. During surgery, the patient developed a fever and required oxygen supplementation. Due to...

[Multiple Missed Opportunities for Suicide Risk Assessment in Emergency and Primary Care Settings](#)

Jane L. Erb, MD, Sejal B. Shah, MD and Gordon D. Schiff, MD | January 7, 2022

An 18-year-old man with a history of untreated depression and suicide attempts (but no history of psychiatric hospitalizations) was seen in the ED for suicidal ideation after recent gun purchase. Due to suicidal ideation, he was placed on safety hold...

[Coming up for Err – Missed Diagnosis in a Patient with Recurrent Pneumothorax](#)

Narath Carlile, MD, MPH, Soheil El-Chemaly, MD, MPH, and Gordon D. Schiff, MD | August 25, 2021

A 31-year-old woman presented to the ED with worsening shortness of breath and was unexpectedly found to have a moderate-sized left pneumothorax, which was treated via a thoracostomy tube. After additional work-up and computed tomography (CT) imaging...

[Paroxysmal Supraventricular Tachycardia Masquerading as Panic Attacks](#)

David T. Martin, MD and Diane O’Leary, PhD | June 30, 2021

Beginning in her teenage years, a woman began "feeling woozy" after high school gym class. The symptoms were abrupt in onset, lasted between 5 to 15 minutes and then subsided after sitting down. Similar episodes occurred occasionally over the...

[Delayed Breast Cancer Diagnosis: A False Sense of Security.](#)

Saul N. Weingart, MD, MPP, PhD, Gordon D. Schiff MD, and Ted James, MD, FACS | December 23, 2020

After a breast mass was identified by a physician assistant during a routine visit, a 60-year-old woman received a diagnostic mammogram and ultrasound. The radiology assessment was challenging due to dense breast tissue and...

[Endometriosis: A Common and Commonly Missed and Delayed Diagnosis](#)

Malcom Mackenzie, MD and Celeste Royce, MD | June 24, 2020

Endometriosis is a common clinical condition that is often subject to missed or delayed diagnosis. In this case, a mixture of shortcomings in clinicians' understanding of the disease, diagnostic biases, and the failure to validate a young woman's...

[Anemia and Delayed Colon Cancer Diagnosis](#)

Mythili P. Pathipati, MD, and James M. Richter, MD | August 10, 2019

An elderly man had iron deficiency anemia with progressively falling hemoglobin levels for nearly 2 years. Although during that time he underwent an upper endoscopy, capsule endoscopy, and repeat upper endoscopy and received multiple...

[Spinal Epidural Abscess](#)

Yi Lu, MD, PhD, and Douglas Salvador, MD, MPH | August 8, 2019

A woman with a history of prior spine surgery presented to the emergency department with progressive low back pain. An MRI scan of T11–S1 showed lumbar degenerative joint disease and a small L5–S1 disc herniation. She was referred for physical...

[Renal Failure Due to Benign Prostatic Hyperplasia](#)

Michael J. Barry, MD, and Marc B. Garnick, MD | August 10, 2019

Referred to urology for a 5-year history of progressive urinary frequency, nocturnal urination, and difficulty initiating a stream, a man had been reluctant to seek care for his symptoms because his father had a "miserable" experience with treatment...

[Strongyloides: A Hidden Traveler and Potentially Lethal Missed Diagnosis.](#)

Narath Carlile, MD, MPH, Clyde Lanford Smith, MD, MPH, DTM&H, James H. Maguire, MD, and Gordon D. Schiff, MD | December 14, 2022

This case describes a man in his 70s with a history of multiple myeloma and multiple healthcare encounters for diarrhea in the previous five years, which had always been attributed to viral or unknown causes, without any microbiologic or serologic...
