

Beyond the organisational accident: the need for "error wisdom" on the frontline.

April 6, 2011

Reason J. Beyond the organisational accident: the need for "error wisdom" on the frontline. Qual Saf Health Care. 2004;13 Suppl 2:ii28-33.

<https://psnet.ahrq.gov/issue/beyond-organisational-accident-need-error-wisdom-frontline>

This commentary uses a case study involving a fatal medication error to illustrate the importance of mental skills that improve recognition of potentially adverse events.
