

Missing clinical information during primary care visits.

February 3, 2011

Smith PC, Araya-Guerra R, Bublitz C, et al. Missing clinical information during primary care visits. JAMA. 2005;293(5):565-71.

<https://psnet.ahrq.gov/issue/missing-clinical-information-during-primary-care-visits>

This survey of 253 primary care clinicians revealed that important clinical information was missing in nearly 1 in 7 visits, and providers believed this missing information could adversely affect patient care.
