

A morning briefing: setting the stage for a clinically and operationally good day.

January 2, 2017

Thompson DA, Holzmueller CG, Hunt D, et al. A morning briefing: setting the stage for a clinically and operationally good day. *Jt Comm J Qual Patient Saf.* 2005;31(8):476-9.

<https://psnet.ahrq.gov/issue/morning-briefing-setting-stage-clinically-and-operationally-good-day>

The authors describe a tool to support reliable communication at shift change and promote improved patient safety. The project was supported by the Agency for Healthcare Research and Quality (AHRQ).
