

A nurse-driven system for improving patient quality outcomes.

July 21, 2010

Johnson K, Hallsey D, Meredith RL, et al. A nurse-driven system for improving patient quality outcomes. J Nurs Care Qual. 2006;21(2):168-175.

<https://psnet.ahrq.gov/issue/nurse-driven-system-improving-patient-quality-outcomes>

The authors describe the development of a staff-driven reporting program to collect data on indicators such as medication errors, patient falls, and nurse overtime hours.
