

Patient safety in the office-based setting.

March 11, 2019

Horton B, Reece EM, Broughton G, et al. Patient safety in the office-based setting. *Plast Reconstr Surg.* 2006;117(4):61e-80e.

<https://psnet.ahrq.gov/issue/patient-safety-office-based-setting>

The authors discuss improving patient safety in the office-based setting through office administration, creating a system of quality assessment, and special considerations for liposuction procedures.
