

Medication reconciliation for reducing drug-discrepancy adverse events.

June 13, 2011

Boockvar K, LaCorte HC, Giambanco V, et al. Medication reconciliation for reducing drug-discrepancy adverse events. *Am J Geriatr Pharmacother.* 2006;4(3):236-43.

<https://psnet.ahrq.gov/issue/medication-reconciliation-reducing-drug-discrepancy-adverse-events>

The investigators examined the effect of pharmacist-conducted [medication reconciliation](#) on the occurrence of discrepancy-related adverse drug events for patients returning to nursing homes after a hospital stay.
