

## **Hospital-acquired Infections in Pennsylvania.**

December 6, 2006

Harrisburg PA: Pennsylvania Health Care Cost Containment Council -- 2005-2010.

<https://psnet.ahrq.gov/issue/hospital-acquired-infections-pennsylvania-1>

---

This collection of reports provides annual findings on the number and rate of health care-acquired infections in Pennsylvania hospitals. The 2010 analysis found the most common HAI to be surgical site infections and urinary tract infections and a slight reduction in patient iatrogenic infections from the previous year.
