

Improving safety throughout the medication use process in a neonatal intensive care unit.

May 11, 2014

Asdigha MN. Improving Safety Throughout the Medication Use Process in a Neonatal Intensive Care Unit. Hosp Pharm. 2010;41(11):1067-1075. doi:10.1310/hpj41111-1067.

<https://psnet.ahrq.gov/issue/improving-safety-throughout-medication-use-process-neonatal-intensive-care-unit>

The author describes changes made within the neonatal intensive care unit to improve medication use safety, including eliminating the "rule of 6" for medication preparation and installing smart pump technology.
