

Managing the care of patients discharged from home health: a quiet threat to patient safety?

August 26, 2011

Flynn L. Managing the care of patients discharged from home health: a quiet threat to patient safety? Home Healthc Nurse. 2007;25(3):184-90.

<https://psnet.ahrq.gov/issue/managing-care-patients-discharged-home-health-quiet-threat-patient-safety>

The author found that nurses have varying degrees of confidence in their patients' ability to manage their own care safely after discharge from home health services.
