

Learning from preventable adverse events in health care organizations: development of a multilevel model of learning and propositions.

March 28, 2012

Chuang Y-T, Ginsburg LR, Berta WB. Learning from preventable adverse events in health care organizations: development of a multilevel model of learning and propositions. *Health Care Manage Rev.* 2007;32(4):330-40.

<https://psnet.ahrq.gov/issue/learning-preventable-adverse-events-health-care-organizations-development-multilevel-model>

Building on established organizational behavioral and learning theories, the authors present a model that allows health care managers to learn from failures such as preventable adverse events.
