

## **Using staff perceptions on patient safety as a tool for improving safety culture in a pediatric hospital system.**

February 15, 2011

Edwards PJ, Scott T, Richardson P, et al. Using Staff Perceptions on Patient Safety as a Tool for Improving Safety Culture in a Pediatric Hospital System. J Patient Saf. 2009;4(2). doi:10.1097/pts.0b013e318173f7cb. <https://psnet.ahrq.gov/issue/using-staff-perceptions-patient-safety-tool-improving-safety-culture-pediatric-hospital>

---

This case study describes how the AHRQ [Hospital Survey on Patient Safety Culture](#) can be used to drive initiatives, measure and monitor progress, and provide feedback loops to targeted patient care settings.
