

Teamwork and patient safety in dynamic domains of healthcare: a review of the literature.

February 6, 2009

Manser T. Teamwork and patient safety in dynamic domains of healthcare: a review of the literature. *Acta Anaesthesiol Scand.* 2009;53(2):143-51. doi:10.1111/j.1399-6576.2008.01717.x.

<https://psnet.ahrq.gov/issue/teamwork-and-patient-safety-dynamic-domains-healthcare-review-literature>

This review approaches the relationship between teamwork and patient safety in the context of three bodies of research: factors contributing to critical incidents, health care providers' perception of teamwork, and effective patterns of communication, coordination, and leadership.
