

Physician practice patterns resemble ACGME duty hours.

July 8, 2009

Anim M, Markert RJ, Wood VC, et al. Physician practice patterns resemble ACGME duty hours. *Am J Med.* 2009;122(6):587-93. doi:10.1016/j.amjmed.2009.02.015.

<https://psnet.ahrq.gov/issue/physician-practice-patterns-resemble-acgme-duty-hours>

Practicing physicians reported regularly working more than 80 hours per week and more than 30 consecutive hours without rest—work hours that exceed the maximum allowable for residents under current [regulations](#).
