

Information-gathering patterns associated with higher rates of diagnostic error.

December 9, 2009

Delzell JE, Chumley H, Webb R, et al. Information-gathering patterns associated with higher rates of diagnostic error. *Adv Health Sci Educ Theory Pract*. 2009;14(5):697-711. doi:10.1007/s10459-009-9152-8. <https://psnet.ahrq.gov/issue/information-gathering-patterns-associated-higher-rates-diagnostic-error>

This study of second-year medical students identified distinct information-gathering patterns during simulated clinical encounters and sought to correlate these patterns with the likelihood of [diagnostic error](#).
