

Measuring the cost of hospital adverse patient safety events.

November 2, 2011

Carey K, Stefos T. Measuring the cost of hospital adverse patient safety events. Health Econ. 2011;20(12):1417-30. doi:10.1002/hec.1680.

<https://psnet.ahrq.gov/issue/measuring-cost-hospital-adverse-patient-safety-events>

This analysis of data from the Veterans Affairs system found that the cost of adverse events (as measured by the AHRQ [Patient Safety Indicators](#)) is likely much higher than previously [estimated](#).
