

Self-reported patient safety competence among new graduates in medicine, nursing and pharmacy.

January 30, 2013

Ginsburg LR, Tregunno D, Norton PG. Self-reported patient safety competence among new graduates in medicine, nursing and pharmacy. *BMJ Qual Saf.* 2013;22(2):147-54. doi:10.1136/bmjqs-2012-001308. <https://psnet.ahrq.gov/issue/self-reported-patient-safety-competence-among-new-graduates-medicine-nursing-and-pharmacy>

Using the [Health Professional Education in Patient Safety Survey](#) (H-PEPSS) tool, this cross-sectional study examines self-reported patient safety competence among newly graduated nurses, pharmacists, and physicians in Canada. The authors conclude that more patient safety–related training is required in health professional education.
