

Implementation of a specialized pharmacy team to monitor high-risk medications during discharge.

January 30, 2013

Martin ES, Overstreet RL, Jackson-Khalil LR, et al. Implementation of a specialized pharmacy team to monitor high-risk medications during discharge. Am J Health Syst Pharm. 2013;70(1):18-21.
doi:10.2146/ajhp120146.

<https://psnet.ahrq.gov/issue/implementation-specialized-pharmacy-team-monitor-high-risk-medications-during-discharge>

This commentary details the development of a [medication reconciliation](#) program to improve documentation at discharge, which included identifying high-risk drugs, forming a team of three full-time pharmacists, and tracking patients with pending discharges.
