

Assessing diagnostic reasoning: a consensus statement summarizing theory, practice, and future needs.

February 6, 2013

Ilgen JS, Humbert AJ, Kuhn G, et al. Assessing diagnostic reasoning: a consensus statement summarizing theory, practice, and future needs. Acad Emerg Med. 2012;19(12):1454-61. doi:10.1111/acem.12034.

<https://psnet.ahrq.gov/issue/assessing-diagnostic-reasoning-consensus-statement-summarizing-theory-practice-and-future>

This commentary highlights the need to evaluate [diagnostic reasoning](#) in emergency medicine to address gaps and motivate research exploring factors that impair assessment.
