

A hazard of impatient medicine.

September 11, 2013

Gunderman R, Lynch J, Harrell H. The Atlantic. September 3, 2013.

<https://psnet.ahrq.gov/issue/hazard-impatient-medicine>

This magazine article reports on the unique tension between efficiency mandates and [patient-centered care](#) through the example of a cancer patient whose suicidal thoughts might have been [missed](#) if not for a curious medical student delving further into the patient's medication concerns during a routine follow-up appointment.
