

Developing a reliable and valid patient measure of safety in hospitals (PMOS): a validation study.

June 25, 2014

McEachan RRC, Lawton R, O'Hara JK, et al. Developing a reliable and valid patient measure of safety in hospitals (PMOS): a validation study. *BMJ Qual Saf.* 2014;23(7):565-73. doi:10.1136/bmjqs-2013-002312. <https://psnet.ahrq.gov/issue/developing-reliable-and-valid-patient-measure-safety-hospitals-pmos-validation-study>

Patients can make unique contributions to identifying safety hazards. This study reports on the validation of the [Patient Measure of Safety](#) survey tool, designed to elicit patient perceptions of safety in the hospital environment.
