

WARNING health IT may be hazardous to your healthcare.

March 12, 2014

Dimick C.

<https://psnet.ahrq.gov/issue/warning-health-it-may-be-hazardous-your-healthcare>

This article relates the development of a taxonomy that hospitals and vendors can use to detect, sort, and analyze [risks](#) associated with health information technology (IT) and explains how organizations should respond once a hazard is identified. The author describes a plan to integrate the [tool](#) into the [Patient Safety Organization](#) reporting system.
