

Standardization in patient safety: the WHO High 5s project.

June 4, 2014

Leotsakos A, Zheng H, Croteau R, et al. Standardization in patient safety: the WHO High 5s project. *Int J Qual Health Care*. 2014;26(2):109-16. doi:10.1093/intqhc/mzu010.

<https://psnet.ahrq.gov/issue/standardization-patient-safety-who-high-5s-project>

This commentary describes a World Health Organization effort to design and apply standardized care processes to address safety concerns. Three standards ([surgical site identification](#), [medication reconciliation](#), and [concentrated](#) injectable medicines) have been developed and implemented in multiple countries in the past 5 years.
