

Sign up to Safety.

July 2, 2014

National Health Service.

<https://psnet.ahrq.gov/issue/sign-safety>

Through a coordinated effort to set goals and devise plans to improve safety in hospitals, the Sign up to Safety campaign aims to prevent 6000 patient deaths in the next 3 years in National Health Service facilities. A primary component of this work is adopting [safety culture](#) behaviors, such as continuous learning, [transparency](#), collaboration, and commitment reducing harm.
