

Malnourishment 'epidemic' plagues hospitals? Really?

October 1, 2014

Clark C. HealthLeaders Media. September 18, 2014.

<https://psnet.ahrq.gov/issue/malnourishment-epidemic-plagues-hospitals-really>

This news article explores the validity of recent reports by an interdisciplinary consortium that one in three hospitalized patients is [malnourished](#) and suggests further research is required to understand this potential patient safety problem.
