

Joshua's Story.

December 3, 2014

Anderson-Wallace M, Denning R. Leeds, UK: Patient Stories; October 18, 2014.

<https://psnet.ahrq.gov/issue/joshuas-story>

[Patient stories](#) are a growing component of understanding the impact of medical errors on patients and uncovering underlying causes. This video features an in-depth interview with the father of an infant who died following delayed diagnosis and treatment for [sepsis](#). The father's quest to understand what happened led to a comprehensive inquiry that revealed regulatory failures and systemic issues with transparency.
