

2014 Annual Benchmarking Report: Malpractice Risks in the Diagnostic Process.

July 18, 2018

Hoffman J, ed. Cambridge, MA: CRICO Strategies; 2014.

<https://psnet.ahrq.gov/issue/2014-annual-benchmarking-report-malpractice-risks-diagnostic-process>

This analysis of more than 4700 diagnosis-related malpractice claims found that most errors occur in the [ambulatory](#) setting, involve lapses in [clinical judgement](#), and result in [missed diagnosis](#) of cancer. The authors use the data to explore [cognitive](#) and process failures that contributed to [diagnostic errors](#).
