

Doctors' experiences of adverse events in secondary care: the professional and personal impact.

February 11, 2015

Harrison R, Lawton R, Stewart K. Doctors' experiences of adverse events in secondary care: the professional and personal impact. Clin Med (Lond). 2014;14(6):585-90. doi:10.7861/clinmedicine.14-6-585. <https://psnet.ahrq.gov/issue/doctors-experiences-adverse-events-secondary-care-professional-and-personal-impact>

According to this survey study, physicians involved in adverse events experience personal and professional harm, and existing reporting practices are not helpful. These findings suggest that despite [prior work](#), systems to address physician needs remain inadequate. Dr. Albert Wu discussed the second victim phenomenon in a past AHRQ WebM&M [interview](#).
