

Educating medical trainees on medication reconciliation: a systematic review.

May 13, 2015

Ramjaun A, Sudarshan M, Patakfalvi L, et al. Educating medical trainees on medication reconciliation: a systematic review. BMC Med Educ. 2015;15:33. doi:10.1186/s12909-015-0306-5.

<https://psnet.ahrq.gov/issue/educating-medical-trainees-medication-reconciliation-systematic-review>

This systematic review aggregated studies that described education initiatives targeted at improving trainees' performance in [medication reconciliation](#). Only seven studies were identified between 1980 and 2013, and none of the described interventions were the same. The authors suggest a combination of didactic, role-playing, and experiential learning sessions as a promising method for educating students about effective medication reconciliation practices.
