

Surgeon Scorecard.

July 22, 2015

Wei S; Allen M; Pierce O.

<https://psnet.ahrq.gov/issue/surgeon-scorecard>

[Transparency](#) has been advocated as a key element of safe, patient-centered care, but data on individual performance has not been made widely available. This database compiles the [death](#) and complication rates of [surgeons](#) performing eight specific elective procedures on Medicare patients to provide [performance](#) records and enhance patient decision-making when selecting surgeons.
