

Pediatric radiology malpractice claims—characteristics and comparison to adult radiology claims.

July 12, 2017

Breen MA, Dwyer K, Yu-Moe W, et al. Pediatric radiology malpractice claims - characteristics and comparison to adult radiology claims. *Pediatr Radiol*. 2017;47(7):808-816. doi:10.1007/s00247-017-3873-2. <https://psnet.ahrq.gov/issue/pediatric-radiology-malpractice-claims-characteristics-and-comparison-adult-radiology-claims>

This study used data from a large risk management database to characterize the frequency and type of malpractice claims against pediatric radiologists. [Diagnostic error](#)—particularly failure to diagnose congenital and developmental abnormalities—was the most common reason for a malpractice suit, with more than half of claims occurring in the outpatient setting.
