

Patient Safety.

January 8, 2020

Halamek LP, ed. Semin Perinatol. 2019;43(8):151172-151182.

<https://psnet.ahrq.gov/issue/patient-safety-18>

The neonatal intensive care unit (NICU) is a complex environment that serves a vulnerable population at increased risk for harm should errors occur. This special issue draws from a multidisciplinary set of authors to explore patient safety issues arising in the NICU. Included in the issue are articles examining topic such as [video assessment](#), [diagnostic error](#), and [human factors](#) engineering in the NICU.
