

Putting the patient in patient safety investigations: barriers and strategies for involvement.

June 3, 2020

Busch IM, Saxena A, Wu AW. Putting the patient in patient safety investigations: barriers and strategies for involvement. J Patient Saf. 2021;17(5):358-362. doi:10.1097/pts.0000000000000699.

<https://psnet.ahrq.gov/issue/putting-patient-patient-safety-investigations-barriers-and-strategies-involvement>

In this literature review, the authors identified patient-, clinician-, and institutional-level [barriers](#) to [patient involvement](#) in patient safety investigations. Potential strategies for overcoming barriers are also discussed, such as adopting a blame-free climate and enhancing clinician training in error disclosure and communication.
