

Obstetrician-gynecologist views of pregnancy-related medication safety.

November 4, 2020

SteelFisher GK, Hero JO, Caporello HL, et al. Obstetrician-gynecologist views of pregnancy-related medication safety. J Womens Health (Larchmt). 2020;29(8):1113-1121. doi:10.1089/jwh.2019.8007. <https://psnet.ahrq.gov/issue/obstetrician-gynecologist-views-pregnancy-related-medication-safety>

This study explored views, practices, and needs related to patient counseling on [medication safety](#) in [obstetrics](#) and gynecology. Survey responses from over 500 OB/GYNs indicate opportunities to improve available resources and information sharing, such as developing new tools to communicate about teratogenic medications and pregnancy-safe over-the-counter medications and dietary supplements.
