

Perceptions of working conditions and safety concerns in community pharmacy.

September 8, 2021

Clabaugh M, Beal JL, Illingworth Plake KS. Perceptions of working conditions and safety concerns in community pharmacy. J Am Pharm Assoc (2003). 2021;61(6):761-771. doi:10.1016/j.japh.2021.06.011. <https://psnet.ahrq.gov/issue/perceptions-working-conditions-and-safety-concerns-community-pharmacy>

Patient safety concerns in [community pharmacies](#) have been documented in the [media](#). This study sought to examine the association of working conditions and patient safety. Results indicate that while all participants reported negative company climate and workflow, those in chain pharmacies reported significantly more fear of [speaking up](#) about patient safety issues than those in independent, big box, or grocery pharmacies.
