

Toolkit for Engaging Patients to Improve Diagnostic Safety.

September 8, 2021

Rockville, MD: Agency for Healthcare Research and Quality; August 2021. AHRQ Publication No. 21-0047-2-EF.

<https://psnet.ahrq.gov/issue/toolkit-engaging-patients-improve-diagnostic-safety>

Patient and family engagement is [core](#) to effective and safe diagnosis. This new toolkit from the Agency for Healthcare Research and Quality promotes two strategies to promote meaningful engagement and communication with patients to [improve](#) diagnostic safety: (1) a patient note sheet to help patients share their story and symptoms and (2) orientation steps to support clinicians [listening](#) and “presence” during care encounters.
