The Accreditation Council for Graduate Medical Education (ACGME) [encourages](#) graduate and undergraduate medical education programs to include the [Quality Improvement and Patient Safety](#) (QIPS) curriculum. This review summarizes the status of QIPS programs in the United States. Program length varied widely, from two simulation-based sessions to a two-year QIPS [fellowship](#). Only a quarter of programs used a standardized, validated QIPS evaluation tool, and resident satisfaction and information retention was mixed.
