

Impact of short-notice accreditation assessments on hospitals' patient safety and quality culture--a scoping review.

April 24, 2024

Scanlan R, Flenady T, Judd J. Impact of short-notice accreditation assessments on hospitals' patient safety and quality culture- a scoping review. J Adv Nurs. 2024;80(10):3965-3976. doi:10.1111/jan.16169. <https://psnet.ahrq.gov/issue/impact-short-notice-accreditation-assessments-hospitals-patient-safety-and-quality-culture>

Healthcare facilities are routinely subjected to [accreditation processes](#) to ensure the delivery of evidence-based care. This scoping review examined whether limited advanced warning of an impending accreditation process can impact quality patient safety, but failed to identify any studies evaluating this relationship.
