

The Safe Home Care Intervention Study: implementation methods and effectiveness evaluation.

May 8, 2024

Sama SR, Quinn MM, Gore RJ, et al. The Safe Home Care Intervention Study: implementation methods and effectiveness evaluation. J Appl Gerontol. 2024;43(11):1595-1604. doi:10.1177/07334648241246472. <https://psnet.ahrq.gov/issue/safe-home-care-intervention-study-implementation-methods-and-effectiveness-evaluation>

Patient or client homes present unique safety challenges. This study utilized motivational interviewing by nurse managers, videos, and a safety handbook to encourage home care recipients to create safer [conditions](#) in their [homes](#) for both themselves and home care aides. The most common improvement following the nurse manager visit was improved access into the home and a reduction in trip and [fall](#) hazards.
