

Toolkit for Reducing Central Line-Associated Blood Stream Infections.

March 1, 2023

Agency for Healthcare Research and Quality. Toolkit for Reducing Central Line-Associated Blood Stream Infections. March 2023.

<https://psnet.ahrq.gov/issue/toolkit-reducing-central-line-associated-blood-stream-infections>

Eliminating [central line-associated bloodstream infections](#) (CLABSIs) is an [ongoing](#) patient safety [priority](#). Designed to be used alongside the [Comprehensive Unit-based Safety Program](#) (CUSP) toolkit, this AHRQ toolkit helps inpatient care teams implement evidence-based practices to reduce CLABSI rates, improve teamwork, and enhance safety culture.
