

Interdisciplinary teamwork

Curated Library

Foundations

[Medical teamwork and the evolution of safety science: a critical review.](#)

Neuhaus C, Lutnæs DE, Bergström J. Cogn Technol Work. 2020;22:13-27.

In this narrative review, the authors contrast approaches to teamwork in healthcare with current concepts in safety science. The authors encourage moving past a 'reductionist' (reducible through information) approach to teamwork training and discuss...

[Implementing Optimal Team-Based Care to Reduce Clinician Burnout.](#)

Smith CD, Corbridge S, Dopp AL, et al. NAM Perspectives. Washington DC: National Academy of Medicine; 2018.

Teamwork can contribute to a healthy and respectful work environment. This discussion paper reviews evidence-based characteristics of high-functioning teams and barriers to their optimization in health care. Strategies to enhance teamwork and...

[Teamwork in healthcare: key discoveries enabling safer, high-quality care.](#)

Rosen MA, DiazGranados D, Dietz AS, et al. Am Psychol. 2018;73:433-450.

Teamwork in health care has been embraced as a key element of patient safety. This review summarizes the evidence regarding teamwork, including strategies to measure team performance and the relationship between teamwork and outcomes.

[The new diagnostic team.](#)

Graber ML, Rusz D, Jones ML, et al. Diagnosis (Berl). 2017;4:225-238.

Teamwork has been highlighted as a key component of patient safety that also applies to improving diagnosis. This commentary describes how the team approach to diagnosis is anchored in patient-centered care and suggests that the diagnostic team must...

[Teaming: How Organizations Learn, Innovate, and Compete in the Knowledge Economy.](#)

Edmondson AC, Schein EH. San Francisco, CA: Jossey-Bass; 2012. ISBN: 9780787970932.

This book explores teamwork, including barriers to effective teamwork and tactics to enhance professional and organizational learning.

[Transforming healthcare: a safety imperative.](#)

Leape L, Berwick D, Clancy C, et al. Qual Saf Health Care. 2009;18:424-8.

Although significant progress has been made in improving patient safety over the past decade, most health care organizations still experience persistent safety problems. In this commentary, leaders of several leading safety organizations endorse five...

Ambulatory

[Team-based approach to improving medication reconciliation rates in family medicine residency clinics.](#)

Harper PG, Schafer KM, Van Riper K, et al. J Am Pharm Assoc (2003). 2021;61:e46-e52.

This article describes a systematic team-based care approach to medication reconciliation implemented in four family medicine residency clinics. After implementation, there was a significant increase in the number of visits with physician-documented...

In-hospital, general

[Understanding teamwork in rapidly deployed interprofessional teams in intensive and acute care: a systematic review of reviews.](#)

Schilling S, Armaou M, Morrison Z, et al. PLoS ONE. 2022;17:e0272942.

Effective teamwork is critical in acute and intensive care settings. This systematic review of reviews and thematic analysis identified four key factors that frame the evidence on interprofessional teams in acute and intensive care settings – (1)...

[Does team reflexivity impact teamwork and communication in interprofessional hospital-based healthcare teams? A systematic review and narrative synthesis.](#)

McHugh SK, Lawton R, O'Hara JK, et al. BMJ Qual Saf. 2020;29:672-683.

Team reflexivity represents the way individuals and team members collectively reflect on actions and behaviors, and the context in which these actions occur. This systematic review identified 15 studies describing the use of team reflexivity...

[A qualitative positive deviance study to explore exceptionally safe care on medical wards for older people.](#)

Baxter R, Taylor N, Kellar I, et al. BMJ Qual Saf. 2019;28:618-626.

This qualitative study compared four high-performing geriatric inpatient units with four average-performance units in order to understand factors that contribute to high performance. The authors conclude that the safety practices did not differ...

[Effects of interdisciplinary team care interventions on general medical wards: a systematic review.](#)

Pannick S, Davis R, Ashrafian H, et al. JAMA Intern Med. 2015;175:1288-98.

Interdisciplinary team care interventions are increasingly common on medical wards, based partly on a widespread belief that these practices will improve efficiency and patient safety. This systematic review sought to evaluate the performance of...

[A systematic review of teamwork in the intensive care unit: what do we know about teamwork, team tasks, and improvement strategies?](#)

Dietz AS, Pronovost P, Mendez-Tellez PA, et al. *J Crit Care*. 2014;29:908-14.

Improving teamwork and communication is a continued focus in the hospital setting. This systematic review revealed that although studies of teamwork in the intensive care unit abound, the field lacks common definitions and constructs. Teamwork...

[Creating an integrated patient safety team.](#)

Gandhi TK, Graydon-Baker E, Barnes JN, et al. *Jt Comm J Qual Saf*. 2003;29:383-90.

Drawing from their experiences at Brigham and Women's Hospital in Boston, the authors discuss development of a patient safety team, including the key players and their roles, how to effectively integrate the team into preexisting committees, and how...

Specialty/Unit Focused

[Interprofessional clinical event debriefing-does it make a difference? Attitudes of emergency department care providers to INFO clinical event debriefings.](#)

Rose SC, Ashari NA, Davies JM, et al. *CJEM*. 2022;24:695-701.

Debriefing is used to enhance individual and team communication and to facilitate real-time learning opportunities after a critical event. This study evaluated a charge nurse-facilitated clinical debriefing program used in Emergency Departments (EDs)...

[Interprofessional collaboration among care professionals in obstetrical care: are perceptions aligned?](#)

Romijn A, Teunissen PW, de Bruijne M, et al. *BMJ Qual Saf*. 2018;27:279-286.

This qualitative study assessed perceptions of teamwork and interprofessional collaboration between obstetricians, nurses, and hospital-based and primary care midwives in the Netherlands. Overall, obstetricians perceived teamwork to be better than...

[The effect of multidisciplinary care teams on intensive care unit mortality.](#)

Kim MM, Barnato AE, Angus DC, et al. *Arch Intern Med*. 2010;170:369-76.

Efforts to improve the care of complex patients in intensive care units (ICUs) focus on many factors, including unit-based initiatives. This retrospective study evaluated the relationship between daily multidisciplinary rounds and 30-day mortality....

[Collaboration between pharmacists, physicians and nurse practitioners: a qualitative investigation of working relationships in the inpatient medical setting.](#)

Makowsky MJ, Schindel TJ, Rosenthal M, et al. *J Interprof Care*. 2009;23:169-84.

This qualitative study of the integration of pharmacists into inpatient care teams found that while pharmacists were greatly valued, successful integration required careful attention to team structure and workload.

[Multidisciplinary approaches to reducing error and risk in a patient care setting.](#)

Connor M, Ponte PR, Conway JB. *Crit Care Nurs Clin North Am.* 2002;14:359-67, viii.

This article describes the multifaceted response of Dana-Farber Cancer Institute after a highly publicized medication error in 1995. The authors review a series of interventions designed through the multidisciplinary efforts of nursing, pharmacy,...
