[In Conversation with... Beverley H. Johnson about The Role of Patient's Family In Reducing Harm](#)

Beverley H. Johnson, FAAN | June 14, 2023

Beverley H. Johnson is the president and CEO of the Institute for Patient- and Family-Centered Care (IPFCC). We spoke to her about her experience in patient and family engagement and improving patient safety, including how to continue to partner with...

[Patient and Family Roles in Safety](#)

Beverley H. Johnson, FAAN, Merton Lee, PharmD, PhD, Sarah E. Mossburg, RN, PhD | June 14, 2023

This piece discusses how family presence and participation in healthcare at all levels can improve patient safety as well as how the COVID-19 pandemic affected partnership with patients and families, ultimately highlighting the critical importance of...

WebM&Ms

[Miscommunication During the Interhospital Transport of a Critically Ill Child](#)

Commentary by Jennifer Rosenthal, MD, MAS and Michelle Hamline, MD, PhD, MAS | August 31, 2022

A 2-year-old girl presented to her pediatrician with a cough, runny nose, low grade fever and fatigue; a nasal swab for SARS-CoV-2 and influenza was negative and lung sounds were clear. The patient developed a fever and labored breathing and was...

[I Just Want to Go Home: Understanding Delirium's Impact on Treatment Preferences](#)

Karl Steinberg, MD, CMD, HMDC, HEC-C | March 27, 2024

A 76-year-old was readmitted for altered mental status after a recent hospitalization. He was experiencing hypoxia and required supplemental oxygen but was intermittently combative, repeatedly asked to go home and declined most medical interventions....
